EXPERIENCE

ANALYTICS
CONSULTANT
OCT 2016 - PRESENT

IBM

Helped clients undergo digital transformations to improve business operations and performance through the Watson AI and Data platform:

- Asset Analyst for defense contractor - develop processes to increase asset inventory database accuracy for billing and reporting
- Watson Practitioner for insurance firm - Supported the WEA to WCS "As-Is Migration" and delivered increased accuracy of chat-bot responses.
- Cognitive Engineer Consultant for bank- Built and deployed a chat-bot demo utilizing Watson Services to assist bankers in customer resolution processes.
- Business Analyst for GHD - Delivered reports from data extracted from QMF to provide executive, operational and predictive analytical reports to the global pricing, finance and channel teams via the IBM Intranet (Cognos).

PERFORMANCE
ANALYST
MAR 2012 - JUL 2016

First Rate Inc.

Served performance solutions for clients in the following operations:

- Processed 10+ billion worth of assets in 22,000 portfolios for investment management firms and other financial institutions
- Researched market and technical issues causing erroneous data and collaborated with clients in finding effective solutions
- Conducted live product demonstrations/walked through calculations to explain causes of returns
- Facilitated company expansion into new territories abroad; Setup initial support team in preparation to delegate assignments
